# I AM MALALA

The Girl Who Stood Up for Education  
and was Shot by the Taliban

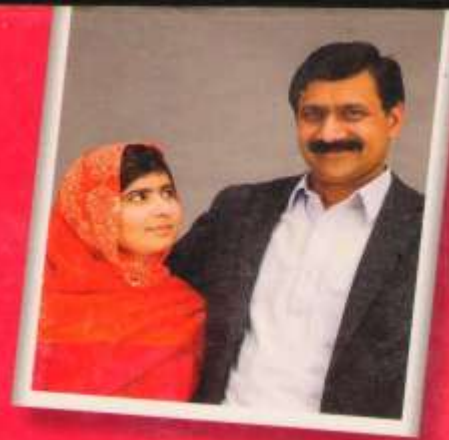

Malala Yousafzai

with Christina Lamb

## SUMMARY

*I come from a country  
which was created  
at midnight.*

*When I almost died it  
was just after midday.*

**When the Taliban took control of the Swat Valley, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education.**

On Tuesday 9 October 2012, she almost paid the ultimate price. Shot in the head at point-blank range while riding the bus home from school, she was not expected to survive.

Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she has become a global symbol of peaceful protest and the youngest ever nominee for the Nobel Peace Prize.

*I Am Malala* is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, and of Malala's parents' fierce love for their daughter in a society that prizes sons.

It will make you believe in the power of one person's voice to inspire change in the world.

**'Who is Malala?' the gunman demanded.**

**I am Malala and this is my story.**

# SUPER 30

CHANGING THE WORLD 30 STUDENTS AT A TIME

# ANAND KUMAR

'Anand Kumar's Super 30 students are  
a great inspiration'

KAILASH SATYARTHI, Nobel Peace laureate

## SUMMARY

'Handicapped by his own modest background, this brilliant mathematician, Anand, turned his failure into an inspirational success story' PRAKASH JHA

Anand Kumar, a mathematics teacher, defied all challenges to set up one of the most successful and innovative initiatives in the world—Super 30.

Born in Gaudiya Math, Patna, Anand secured a place at Cambridge University, but couldn't attend because he had no money and sold papads in the evenings instead. He dealt with his own disappointment by setting up an innovative school in 2002 to prepare underprivileged students for the IIT JEE examination. Super 30 has an astonishing success rate and, on average, twenty-seven to twenty-eight of the thirty students crack the exam every year. Stirring and heart-wrenching, this is the extraordinary story of a visionary who has elevated these bright sparks and, through education, given them hope to rise above crippling poverty and realize their true potential.

'Incredible. One of four most innovative schools in the world' *NEWSWEEK*

'Revolutionary experiment to bring about social change' *BBC*

'The Best of Asia 2010' *TIME*

'One is tempted to call him Midas' *THE HINDU*
